# FACIAL REJUVENATION VIP REWARDS PROGRAM

Rejuvenate, revitalize and receive special treatment all year round! Facial Rejuvenation VIP Members receive free injectables and exclusive pricing on essential products all year round.

## WHAT IS IT?

Injectables and fillers are a non-surgical way of bringing back lost volume caused by aging and smoothing deeper wrinkles. You'll love the ability to smooth away facial wrinkles and folds, and to plump lips for a more youthful appearance. Most injectable fillers last for about six months to a year, and injectable wrinkle medications last a little less time, usually around three months.
